

HT-30A

HT-30C

Automatic Clamping Shaker and Rotating Mixer

High-speed mixing shaker is widely used in coatings or ink systems, and analyzing the chromaticity of pigments is an important economic index for us to evaluate the performance of pigments. Through dispersion, the adhesion of pigment was evaluated.

Features

HT-30A Automatic Rotating Mixer:

Applicable range: 0.5L-20L(paint in drum)

Height in the drum: 70mm to 390mm

Diameter of the drum: 70mm to 300mm

Revolution speed :60-200rpm

Rotation speed: 120-400rpm

Net weight: 180kg Gross weight: 228kg

Case size: 1095(H)x 820(W) x 750(D)

HT-30A

HT-30C Automatic Clamping Paint Shaker:

Applicable range: 0.5L-20L(paint in drum)

Height in the drum: 70 to 390mm

Diameter of the dru400rpm

Shaking frequency: 680-710t/min

Voltage:220V 50HZ

Power suppl: 750w

Net weight: 210kg

Gloss weight: 245kg

Case size: 1125×800×830mm

HT-30C

Technical Specification

Name	Automatic Clamping Paint Shaker	Automatic Rotating Mixer
Tye	HT-30C	HT-30A
Applicable range	0.5-20L (paint in drum)	0.5-20L (paint in drum)
Height in the drum	height: 70-390mm diameter: 70-300mm	height: 70-390mm diameter: 70-300mm
Revolution speed	N/A	60-200r/min
Rotation speed	N/A	120-400r/min
Shaking frequency	680-710 t/min	N/A
Clamping mode	Automatic clamping	Automatic clamping
Voltage	220V 50Hz	220V 50Hz
Power suppl	0.75Kw	0.75Kw
Net weight	210Kg	187Kg
Gloss weight	245Kg	228Kg
Machine size	1060×760×825	1010×860×710
Case size	1125×800×830	1095×900×800

HT-40A/30C can be customized according to the size of the customer's sample containerOptional material (wood / stainless steel)
