TWIN ARM SHAKER

KS-370A/370B

The Modern Instruments KS-370 series Twin Arm Shaker (Fast Mixer) widely known as “Quick Worker” is used to disperse coatings, dyestuff and ink, etc. quickly & efficiently in the laboratory, and perform various formulation comparison test at the same time.

The KS-370 has two models, the “Pedestal” and “Counter” and each with two specification, the “Carry Can” (not provided) and “Carry Bottle” (8 bottles provided).

KS-370C/370D

“Pedestal” is more convenient for getting the material in and out, while Counter" is more stable. “Carry Can” can carries various kinds of can. The max diameter of container is 180mm, with height range is from 65mm to 180mm. “Carry Bottle” has a holder for small glass bottles (each side carries 4 small glass bottles, with a maximum of 8 small glass bottles), capacity at 195 ml.
